# PRICED CATALOGUES

## Coins

---

*A*FTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin catalogues a year, some of which are usually of sales of important collections. The **priced catalogues** are posted to subscribers as soon as ready. usually about three weeks after the date of sale and the subscription is . . . .

**THIRTY SHILLINGS per annum**

Commencing from 1st January
